SUBJECT INDEX

Abdomen, acute pain, clinical outcomes, 680
Accidental administration, ergot alkaloid to a neonate, 457
Accidents. *see* Injury
Acellular pertussis vaccine trial (letters), 800
Acquired immunodeficiency syndrome. *see also* Human immunodeficiency virus
  neurologic status, HIV-1-infected infants, 1109
  pain associated with, incidence/characteristics of, 449
Acute renal failure, ketorolac-induced, previously healthy adolescent, 294
Adenosine infusion, oxygenation in term infants with respiratory failure (letters), 1224
Adolescent
  assault victim needs (committee statement), 991
  bone mineral density, geographically diverse populations, 948
  cholesterol screening in urban African-Americans, failure of, 383
  encouraging use of Norplant is bad advice (letters), 1222
  graduated (driving) licensure, 959 (commentary), 987 (committee statement)
  high blood pressure, update on Task Force (1987) Report, 649, 1002 (letters)
  intentions to use violence, 1104
  ketorolac-induced acute renal failure in previously healthy, 294
  male involvement in pregnancy, other risk and problem behaviors, 262
  motor vehicle competence/risks, with ADHD, 1089
  music lyrics/music videos, impact on (committee statement), 1219
  opioid and benzodiazepine dependence, management of, 135
  pregnancy, neonatal mortality and birth weight, 1161
  sexual behavior
    alcohol misuse and risk taking, 91
    condom use by African-Americans, in high-risk urban environments, 269
  smokers, nicotine patch therapy, 659
  special health care needs, transition of care for (committee statement), 1203
  testing for drugs of abuse in (committee statement), 305
  triathlon participation by (committee statement), 511
  vocal cord dysfunction mimicking exercise-induced bronchospasm, 971
β-Adrenergic agonist therapy, asthma, best articles relevant to (synopsis book), 338
African-Americans
  adolescent condom use, in high-risk urban environments, 269
  cholesterol screening in urban adolescents, failure of, 383
Air pollution and SIDS (letters), 796
Airway chemoreceptor, maternal smoking, pulmonary neuroendocrine cells in SIDS, 668
Alcohol abuse
  adolescent sexual behaviors and risk taking, 91
  dysmorphology and epidemiology in "diagnosis" of fetal alcohol effects (letters), 315
Allergens, best articles relevant to (synopsis book), 319
Allergy
  best articles relevant to (synopsis book), 319
  epidemiology, best articles relevant to (synopsis book), 321
  immunotherapy, best articles relevant to (synopsis book), 323
  pathophysiology, best articles relevant to (synopsis book), 324
Allopurinol, xanthine dehydrogenase/oxidase in reoxygenation injury, 103
Ambulatory care. *see also* Community-based health care
  pediatric, continuity in a universally insured population, 1028
  use of chaperones during physical examination (committee statement), 1202
American Academy of Pediatrics
  Committee on Adolescence: Adolescent assault victim needs, 991
  Committee on Adolescence: Teenage driver, 987
  Committee on Adolescence: Transition of care provided for adolescents with special health care needs, 1203
  Committee on Bioethics: Ethics and the care of critically ill infants and children, 149
  Committee on Children with Disabilities: Medication for children with attentional disorders, 301
  Committee on Children with Disabilities: Role of the pediatrician in implementing the Americans with Disabilities Act, 146
  Committee on Children with Disabilities: Role of the pediatrician in prescribing therapy services for children with motor disabilities, 308
  Committee on Children with Disabilities: Transition of care provided for adolescents with special health care needs, 1203
  Committee on Communications: Impact of music lyrics and music videos on children and youth (RE9144), 1219
  Committee on Community Health Services: Health needs of homeless children and families, 789
  Committee on Drugs: Medication for children with attentional disorders, 301
  Committee on Drugs: Unapproved uses of approved drugs, 143
  Committee on Fetus and Newborn: Role of primary care pediatrician in the management of high-risk newborn infants, 786
  Committee on Fetus and Newborn: Use and abuse of the Apgar Score, 141
  Committee on Genetics: Health supervision for children with fragile X syndrome, 297
  Committee on Genetics: Health supervision for children with Marfan syndrome, 978
  Committee on Genetics: Health supervision for children with sickle cell diseases and their families, 467
  Committee on Genetics: Newborn screening fact sheets, 473
  Committee on Hospital Care: Medical staff appointment and delineation of pediatric privileges in hospitals, 983
  Committee on Hospital Care: Physician's role in coordinating care of hospitalized children, 509
  Committee on Infectious Diseases: Prevention of hepatitis A infections: guidelines for use of hepatitis A vaccine and immune globulin, 1207
  Committee on Infectious Diseases: Recommended childhood immunization schedule, 158
  Committee on Injury and Poison Prevention: Teenage driver, 987
  Committee on Medical Liability: Liability and managed care, 792
  Committee on Practice and Ambulatory Medicine: Eye examination and vision screening in infants, children, and young adults, 153
  Committee on Practice and Ambulatory Medicine: Role of primary care pediatrician in the management of high- risk newborn infants, 786
  Committee on Practice and Ambulatory Medicine: Safeguards needed in transfer of patient data, 984
  Committee on Practice and Ambulatory Medicine: Use of chaperones during the physical examination of the pediatric patient, 1202
  Committee on Sports Medicine and

Fitness: Protective eyewear for young athletes, 311
Committee on Sports Medicine and Fitness: Protective eyewear for young athletes (letters), 314
Committee on Sports Medicine and Fitness: Triathlon participation by children and adolescents, 511
Committee on Substance Abuse: Testing for drugs of abuse in children and adolescents, 305
Section on Allergy and Immunology: 1996 annual meeting program, 517
Section on Anesthesiology: Evaluation and preparation of pediatric patients undergoing anesthesia, 502
Section on Cardiology: 1996 annual meeting program, 518
Section on Computers and Other Technologies: 1996 annual meeting program, 537
Section on Critical Care: 1996 annual meeting program, 541
Section on Emergency Medicine: 1996 annual meeting program, 551
Section on Ophthalmology: Eye examination and vision screening in infants, children, and young adults, 153
Section on Orthopedics: 1996 annual meeting program, 553
Section on Perinatal Pediatrics: 1996 annual meeting program, 571
Section on Surgery: 1996 annual meeting program, 585
Section on Transport Medicine: 1996 annual meeting program, 589
Section on Urology: Annual meeting program (1996), 591
Section on Urology: Annual meeting report (1995), 108
Task Force on Infant Positioning and SIDS: Supplement, 1216
Anaphylaxis, best articles relevant to (synopsis book), 319
Anemia, diet history in screening of iron deficiency, 1138
Anesthesia, evaluation/preparation of pediatric patients for (committee statement), 502
Annual summary, vital statistics (1985), 1007
Anogenital region, perianal lymphangioma circumscriptum mistaken for genital warts, 461
Anti-epileptic drugs, status epilepticus prevention and, 1119
Aorta, coarctation of, early diagnosis in children, 378
Apgar Score use and abuse (committee statement), 141
Apolipoprotein E polymorphism, serum lipids in infants, 757
Arthritis, chronic juvenile, prevalence in 12-year-old Australian children, 84
Asthma
β-adrenergic agonist therapy, best articles relevant to (synopsis book), 338
admissions and readmissions, cohort study, 191
concomitant diseases, best articles relevant to (synopsis book), 343
diagnosis and management, best articles relevant to (synopsis book), 333
diagnosis and management (letters), 800
environmental factors, best articles relevant to (synopsis book), 331
epidemiology, best articles relevant to (synopsis book), 328
hospitalization rates and quality of care, 18
influenza vaccination during concurrent prednisone therapy, 196
pathophysiology, best articles relevant to (synopsis book), 336
steroid therapy, best articles relevant to (synopsis book), 338
steroids and (letters), 168
theophylline therapy, best articles relevant to (synopsis book), 341
therapies, other, best articles relevant to (synopsis book), 342
Athletics
protective eyewear for (committee statement), 311
protective eyewear for (letters), 314
Attention-deficit hyperactivity disorder
medication for children with attentional disorders (committee statement), 301
methylphenidate dosing, 748
methylphenidate usage, increased, 1084
motor vehicle competencies/risks with, 1089
Ritalin, need for bedtime dose (letters), 314
teaching deficit disorder (letters), 167
weight loss in children with, predictors of, 763
Autoimmune disease, best articles relevant to (synopsis book), 351
Autoimmune phenomena, histiocytic necrotizing lymphadenitis with, 130

Bacillus Calmette-Guérin (BCG) infection, idiopathic disseminated, 774
Baseball injuries, a Little League survey, 445
Bed-wetting in US children, epidemiology, related behavior problems, 414
Behavior
adolescent male involvement in pregnancy, other risk and problem behaviors, 262
prenatal cocaine exposure
dose-response effects on neonatal outcome, 735
late dose-response effects on newborn neurobehavior, 76
neuromotor development and, 938
related problems and bed-wetting in US children, epidemiology of, 414
in utero substance exposure and infant neurobehavior, 71
Benzodiazepine dependence, management in infants, children, and adolescents, 135
Bicarbonate, renal excretion in extremely LBW infants, 256
Bicycling, pediatric head injuries and deaths, 868
Bilirubin problem: The debate continues (letters), 165
Birth asphyxia, nonprotein-bound iron and, 883
Birth defects, periconceptional multivitamin use, conotruncal heart defects and, 911
Birth weight. *see also* Very low birth weight
cognitive/neurodevelopment, premature/SGA infants through age 6, 1167
neonatal cranial ultrasound abnormalities in LBW, cognitive outcome and, 719
neonatal mortality, adolescent and adult mothers, 1161
Blister beetle ingestion, 458
Blood pressure
high, update on Task Force (1987) Report, 649, 1002 (letters)
physical activity, lipids, lipoprotein and, preadolescent girls, 389
Blood transfusion, HCV infection with IVIG, clinical and virologic features of, 211
Body mass index, weight loss predictors in children with ADHD, 763
Bone marrow transplantation, inborn errors of metabolism, preventing rejection in HLA-mismatched, 420
Bone mineral density, geographically diverse adolescent populations, 948
Brain injury
garage door openers, hazards of, 770
periureteral injection of Teflon, one year after, 290
Breast-feeding
galactopoietic response to growth hormone, mothers of preterm infants, 279
HIV-1 detected in breast milk, vertical transmission, 438
lactation insufficiency in mothers of preterm infants, galactopoietic response to rGH, 279
practices among resident physicians, 434
Bronchopulmonary dysplasia
dexamethasone trial (letters), 514
dexamethasone trial in surfactant-treated infants, 204
eliminating sleep-associated hypoxemia, improves growth in infants, 779
intubation rates in VLBW infants, population-based study, 24
intubation rates in VLBW infants (commentary), 125
patent ductus arteriosus, in hyaline membrane disease, 1149
Bronchospasm, exercise-induced in adolescents, vocal cord dysfunction mimicking, 971
Burns
fireworks-related injuries, 1
iatrogenic scald, institutional infection control measures and, 963

Cancer, papillary thyroid, pediatric perspective, 464
Cantharidin poisoning by blister beetle ingestion, 458
Capitation adjustment for pediatric populations, 10

Cardiology, abstracts of section scientific presentations, AAP 1996 annual meeting, 520
Ceftriaxone choledocholithiasis, 133
Cerebral palsy
early identification by abnormal motor patterns, 692
hypocarbia, cystic periventricular leukomalacia, prematurity, jet ventilation and, 918
Chaperones and physical examination of pediatric patient (committee statement), 1202
Child abuse
adolescent assault victim needs (committee statement), 991
perianal lymphangioma circumscriptum mistaken for genital warts, 461
structured clinical forms, model for use of, 429
Child development. *see also* Neurodevelopment
leptin concentrations with obesity, gender and, 201
outcomes of extremely LBW infants, 931
zinc supplementation, effect on observed activity levels, 1132
Child safety
protective eyewear for young athletes, 311 (committee statement), 314 (letters)
Choledocholithiasis and ceftriaxone, 133
Cholesterol
apolipoprotein E polymorphism, serum lipids in infants, 757
screening in urban African-American adolescents, failure of, 383
Chronic illness
assuring quality of care, special needs children in managed care, 178
capitation adjustment, pediatric populations, 10
monitoring managed care for children with, 952
Chronic lung disease in VLBW infants, early dexamethasone therapy (letters), 799
Cigarettes. *see* Smoking
Clonidine and electrocardiograms (letters), 1223
Coarctation of the aorta, early diagnosis in children, 378
Cocaine
maternal risks for VLBW infant mortality, 236
prenatal exposure
determined by gastric fluid analysis, 291
dose-response effects on neonatal behavior, 735
infant neurobehavior and, 71
late dose-response effects on newborn neurobehavior, 76
neuromotor development and, 938
Cognition
neonatal cranial ultrasound abnormalities in LBW, relation to, 719
premature/SGA infants through age 6, 1167

"Back to Sleep" program, 127 (commentary), 163 (letters)
methylphenidate dosing, ADHD, 748
supine sleeping, asymmetric heads and (commentary), 127
Task Force on Infant Positioning and SIDS: Supplement (committee statement), 1216
Sleep-associated hypoxemia and BPD, 779
Sleep-disordered breathing, recognition of, 871
Small for gestational age infants, cognitive/neurodevelopment, compared to premature infants through age 6, 1167
Smoking
intervening to reduce environmental exposure in infants (letters), 513
maternal, pulmonary neuroendocrine cells in SIDS, 668
nicotine patch therapy in adolescents, 659
Somnambulism, sleep-disordered breathing, recognition of, 871
Spanking, 807, 828, 837, 842. *see also* Corporal punishment
Sports participation
baseball injuries, a Little League survey, 445
protective eyewear for, 311 (committee statement), 314 (letters)
triathlon, by children and adolescents (committee statement), 511
Status epilepticus prevention, antiepileptic drug levels and, 1119
Steroids
asthma and, best articles relevant to (synopsis book), 338
asthma and (letters), 168
Streptococcus
group B, neonatal vertebral osteomyelitis, 459
β-hemolytic, group A and varicella-zoster virus infections (letters), 314
Substance abuse. *see also* Cocaine
testing for drugs of abuse in children and adolescents (committee statement), 305
in utero exposure and infant neurobehavior, 71
Sudden infant death syndrome
air pollution and (letters), 796
"Back to Sleep" program, 127 (commentary), 163 (letters)
maternal smoking and pulmonary neuroendocrine cells, 668
Task Force on Infant Positioning and SIDS: Supplement (committee statement), 1216
Sun awareness, early childhood education promoting, 52
Surfactant therapy
dexamethasone trial in VLBW infants, BPD prevention, 204
high-frequency oscillatory ventilation in RDS, improved outcomes with, 1044, 1196 (commentary)
outcomes of extremely LBW infants, 931

Technology. *see* Computers and other technologies
Teenage. *see* Adolescent
Teflon, periureteral injection with brain injury one year later, 290
Theophylline therapy, asthma, best articles relevant to (synopsis book), 341
Thyroid gland
  cancer, papillary, pediatric perspective, 464
  function
    screening, early discharged infants, 41
    VLBW infants, iodine and, 730
Tissue adhesive for laceration repair in children, 673
Tobacco. *see* Smoking
Transplants, HLA-mismatched bone marrow, inborn errors of metabolism, 420
Transport medicine, abstracts of section scientific presentations, AAP 1996 annual meeting, 589
Transpyloric feeding tubes, rapid replacement, pH-assisted and standard insertion techniques, 242
Trauma. *see* Injury
Triathlon participation by children and adolescents (committee statement), 511
Tuberculin skin testing
  new schools of thought (commentary), 123
  screening of schoolchildren, United States, 97

Ultrasound, cranial abnormalities in low birth weight, 719
Unilateral cryptorchidism, paternity after, 676
United States
  polio immunization schedule changes as bad public health policy (commentary), 115
  routine emergency department use for sick care, 28
  tuberculin skin test screening, schoolchildren, 97
  tuberculin skin test screening (commentary), 123
U.S. Food and Drug Administration
  unapproved uses of approved drugs, 118 (commentary), 143 (committee statement)
Upper airway disorders
  best articles relevant to (synopsis book), 327
  sleep-disordered breathing, recognition of, 871
Urine latex agglutination tests (letters), 798
Urology
  abstracts of section scientific presentations, AAP 1996 annual meeting, 596
  section report, AAP 1995 annual meeting, 108

Vaccine. *see also* Immunization
  acellular pertussis trial (letters), 800
  financial coverage for, provider practices and underimmunization, 1062
  Haemophilus influenzae type B mixed regimen, evaluation of, 898
  hepatitis A, guidelines for use (committee statement), 1207
  hepatitis B, parents' attitudes towards school-based program, 410
  idiopathic disseminated BCG infection, 774
  influenza, during acute asthma exacerbation, concurrent prednisone therapy, 196
  measles, during respiratory virus season, 905
  National Childhood Vaccine Injury Act (1986), 1179, 1200 (commentary)
  varicella, questions about (letters), 1225
Varicella vaccine, questions about (letters), 1225
Varicella zoster virus, group A β-hemolytic streptococcus, association with (letters), 314
Ventilator. *see* Mechanical ventilation
Very low birth weight
  changes in intubation rates, population-based study, 24, 125 (commentary)
  dexamethasone trial with surfactant therapy, BPD prevention, 204
  early dexamethasone therapy, CLD (letters), 799
  iodine, thyroid function and, 730
  maternal risks for VLBW infant mortality, 236
  neurodevelopmental outcome with early indomethacin, 714, 784 (commentary)
  outcomes of extremely LBW infants, 931
  renal bicarbonate excretion in extremely LBW infants, 256
  survival, ≤ 800 grams (letters), 316
Vesicoureteral reflux, brain injury one year after periureteral injection of Teflon, 290
Violence
  adolescent assault victim needs (committee statement), 991
  adolescents, intentions to use, 1104
  interpersonal, impact in suburban/urban middle school students, 396
  social, spanking and, 837, 842, 1198 (commentary)
  subabusive, in middle-class American child-rearing, 845, 849
Vision screening and eye examination (committee statement), 153
Vital statistics, annual summary (1995), 1007
Vitamins, periconceptional use and conotruncal heart defects, 911
Vocal cord dysfunction mimicking exercise-induced bronchospasm in adolescents, 971

Weight. *see also* Birth weight
  loss in ADHD children with stimulant medication, 763
  modification efforts, preadolescent girls by race, 63
White matter injury, neonatal cranial ultrasound abnormalities in LBW, cognitive outcome and, 719

Xanthine dehydrogenase/oxidase in hypoxia-reoxygenation injury, 103

Zinc supplementation, effect on observed activity levels, 1132
